RULES AND REGULATIONS

The following are the rules and regulations of the North Nelson Water District. The schedule of rates prescribed herein will be uniformly charged to all customers of the utility. No one will receive or be entitled to free service by the utility. No employee or individual commissioner of the utility is permitted to make an exception to these rates, rules, or regulations. These rules and regulations are subject to change by the utility at any time, subject to the approval of the Public Service Commission.

A. Service Information.

1. Meters are the property of the utility and are not to be tampered with except by an authorized operator.
2. Meters will be read monthly between the 1st and 20th of each month.
3. Bills are mailed on or about the 25th of each month.
4. Payments are due between the 25th of one month and the 10th of the next month.
5. Payments must be received, not postmarked, before the close of business on the 10th day of the month; otherwise, the unpaid bill will be assessed the late payment penalty listed in the utility's tariff that is approved and on file with the Public Service Commission.
6. Bills not paid by the 20th are deemed delinquent and are subject to loss of service. The utility may terminate service on a delinquent account only after five (5) days' written notice of termination has been given.
7. There can be no more than one house, apartment, or mobile home connected to a single meter.
8. Regardless of who pays the water bill, the person whose name appears on the bill is responsible for the bill until the utility is notified to discontinue service in that name and a final meter reading is taken.
9. The utility is responsible for maintaining the system up to and including the meter. Repairs beyond the meter are the consumer's responsibility.

(Name of Utility)

RULES AND REGULATIONS

10. Payments are to be paid by mail to North Nelson Water District, P.O. Box 25, Coxs' Creek, KY 40013 or the Utility's office at 5555 Louisville Road.
11. Complaints should be directed to the manager at (502) 348-8342.

B. Extension Policy.

The utility shall determine the total cost of the proposed water main extension (exclusive of the meter connections) and the total length of the extension. The utility shall pay that portion of the cost of the water main extension equal to fifty (50) feet for each applicant for service. That part of the cost not covered by the utility's portion shall be contributed equally by those applicants desiring service on the main extension. Each applicant will also be required to pay the utility's approved connection/tap-on fee for a meter connection to the main extension.

For a period of five years after the original construction of the main extension, each additional customer directly connected to each particular extension will be required to contribute to the cost of that water main extension based on a recomputation of both the utility's portion of the total cost and each customer's contribution as set out above. The utility must refund to those customers that have previously contributed to the cost of each main extension itself that amount necessary to reduce their contribution to the currently calculated amount for each customer connected to that extension. All customers directly connected to each main extension for a five-year period after it is placed in service are to contribute equally to the cost of construction of the water main extension itself. In addition, customers must pay the approved connection / tap-on fee applicable at the time of their application for the meter connection. The connection / tap-on fee is not part of the refundable cost of the extension and may be changed during the refund period. After the five-year refund period expires, any additional customer applying for service on each main extension must be connected for the amount of the approved connection / tap-on fee only. Also, after the five-year period expires, the utility will be required to make refunds for an additional five-year period in accordance with 807 KAR 5:066 Section 12(b).

RULES AND REGULATIONS

HIGHWAY 48 WATER MAIN EXTENSION POLICY

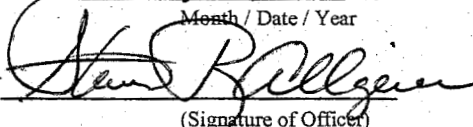

1. **APPLICABILITY.** These rules are applicable to the water main extension which the North Nelson Water District (the "District") proposes to construct along Kentucky Highway 48 (High Grove Road) from Fairfield to High Grove and any main extensions that are constructed along any side roads extending from Highway 48. The side roads include the following: Gordon Drive, Gordon Court, Dotson Court, Whitesides Road, Hibbs Lane, King Road, Snider Lane, Hickman Lane, Roby Lane and Love Lane. Collectively, these water main extensions shall be referred to as the "Project". The area served by these water main extensions shall be referred to as the "Project Area."
2. **COMPLETION DATE.** The term "Completion Date" shall refer to the date that a particular water main extension located within the Project Area has been placed into service and water service has been made available to customers. The District shall keep a record of the Completion Date for each water main extension constructed within the Project Area and shall notify the customers.
3. **CUSTOMER CONTRIBUTION TO THE PROJECT.** For a period of 10 years after the Completion Date, each customer directly connecting to a water main installed as part of the Project shall make a \$2,500 contribution in aid of construction to the District. This contribution can either be paid in lump sum or it will be financed by the District at an interest rate of 6% payable in 120 equal monthly installments of \$27.76 each.

4. **DISTRICT CONTRIBUTION.** The District shall contribute \$1,000 per initial applicant. The District shall not be reimbursed for this contribution. In addition, the District shall advance the balance of the funds necessary to complete the Project. The funds advanced by the District shall be subject to reimbursement as additional customers connect to the water main extensions.
5. **PAYMENT OF CUSTOMER CONTRIBUTION.** An applicant for service has the option of paying the \$2,500 contribution in aid of construction in a lump sum or signing a Promissory Note prior to receiving water service. A copy of the Promissory Note is attached hereto and incorporated here by reference.
- a. **Monthly Payments.** The unpaid principal balance owed by the customer shall bear interest at the rate of six per cent (6%) per annum and shall be paid in 120 equal monthly installments of \$27.76 each.
- b. **Prepayment Privilege.** The customer shall have the right to prepay all, or any part, of the Promissory Note without prepayment penalty.

RULES AND REGULATIONS

c. Termination of Water Service. The District shall show the monthly debt installment payment as a separate line item on the customer's monthly water bill. The debt payment shall be due on the same date that the water bill is due. Payment of the amount due for both water service and debt payment shall be a condition of continued water service. The District shall have the right to terminate a customer's water service if that customer fails to timely pay the monthly debt installment payment.

d. No Transfer of Promissory Notes. In the event a customer sells or otherwise transfers his property before his Promissory Note has been paid in full, then the entire remaining unpaid balance shall become due and payable at the time of sale or transfer. The Promissory Note is not assumable by the new purchaser. The new purchaser shall not be required to pay any additional contribution in aid of construction unless the new purchaser desires an additional meter.

6. **NO REFUNDS.** Each customer recognizes and acknowledges that additional persons will probably connect to the water main extensions located within the Project Area within 10 years after the Completion Date. Each of these subsequent customers shall make a \$2,500 contribution in aid of construction. No customer shall be entitled to any refund or rebate as these additional customers connect to the water mains. Because of the substantial, initial contribution made by the District and its advancement of the balance of the funds necessary to complete the Project, the District shall not be required to refund any applicants for service the cost of 50 feet of the water main extension for each additional customer that directly connects to the water main extensions during the 10 years following the Completion Date as Administrative Regulation 807 KAR 5:066, Section 11 requires.
7. **SEPARATE ACCOUNT.** All contributions in aid of construction paid by customers within the Project Area, including both lump sum and monthly installment payments, shall be deposited by the District into a separate account and accounted for separately from other District funds. The funds in this account shall be used to reimburse the District for all Project costs in excess of the initial contribution made by the District.

8. **SUBSEQUENT CUSTOMERS.** All customers, including initial applicants and those persons directly connecting to the water main extension for a period of 10 years after the Completion Date, shall pay the same \$2,500 contribution in aid of construction. There shall be no reduction in the amount of the contribution in aid of construction as additional customers connect to the water main extensions.
9. **MAXIMUM AMOUNT OF CONTRIBUTIONS.** The maximum amount of contributions in aid of construction collected by the District shall not exceed the amount of the Project costs advanced by the District. (The initial District contribution of \$1,000 per initial applicant shall be excluded in computing the amount advanced by the District). The District shall cease collecting contributions in aid of construction once the cumulative total contributions reach the amount advanced by the District.
10. **TAP FEE.** To receive water service, a customer must also pay the meter connection fee (tap fee) and the customer deposit set forth in the District's filed rate schedule.

C. Water Loss Adjustment Policy.

In the event of water loss, which the system deems is beyond the reasonable control of the consumer, their bill may be adjusted as follows:

1. Water loss will be adjusted using the following formula:
 - a) The average usage of the consumer for the previous twelve months shall be determined, and the excess of the current period shall be charged at the current wholesale rate, with the difference credited to the customer's account.
 - b) If a twelve month history is not available for the consumer, the average usage will be determined by the average usage of all customers in the same class and then calculated as above.
2. Such an adjustment will only be made one (1) time in a given twelve month period. If more than one break occurs within the same period, any additional adjustment must be approved by the governing body of the water system.
3. In order to qualify for a water loss adjustment, the consumer must meet one or all of the following:
 - a) If repair work is performed for hire, a copy of the billing invoice must be submitted at the billing office.
 - b) If repair work is performed by the homeowner, a copy of the receipt for purchased parts should be submitted at the office.
 - c) Verification by system authorized field representative that he has met with consumer and can verify a line loss.

RULES AND REGULATIONS

D. Deposits.

The utility may require a minimum cash deposit or other guaranty to secure payment of bills. Service may be refused or discontinued for failure to pay the required deposit. Interest, as prescribed by KRS 278.460, will be paid annually either by refund or credit to the customer's bill, except that no refund will be made if the customer's bill is delinquent on the anniversary date of the deposit. The deposit amount shall be a calculated deposit based on 2/12ths of the customer's actual or estimated average annual bill.

The deposit may be waived upon a customers' showing of satisfactory credit or payment history, and required deposits will be returned after one (1) year if the customer has established a satisfactory payment record for that period. If a deposit has been waived or returned and the customer fails to maintain a satisfactory payment record, a deposit may then be required. The utility may increase or decrease the initial deposit if the customer's classification of service changes or if there is a substantial change in usage. Upon termination of service, the deposit, any principal amounts, and any interest earned and owing will be credited to the final bill with any remainder refunded to the customer.

If a deposit is held longer than 18 months, the deposit will be recalculated at the customer's request based on the customer's actual usage. If the deposit on account differs from the recalculated amount by more than \$10.00 for residential customers or ten (10) percent for a non-residential customer, the utility may collect any underpayment and shall refund any overpayment by check or credit to the customer's bill. No refund will be made if the customer's bill is delinquent at the time of the recalculation. Upon termination of the service, any deposit and interest owed to the customer will be credited to the final bill with any remainder refunded to the customer.

RULES AND REGULATIONS

E. Special Non-recurring Charges.

1. The utility will collect for special nonrecurring charges to recover customer-specific costs incurred which would otherwise result in monetary loss to the utility or increased rates to other customers to whom no benefits accrue from the service provided or action taken. The utility may establish or change any special nonrecurring charge by applying for Public Service Commission approval of such charge in accordance with the provisions of 807 KAR 5:011, Section 10.
2. Special nonrecurring charges will be applied uniformly throughout the area served by the utility. Such charges will relate directly to the service performed or action taken and only yield enough revenue to pay the expenses incurred in rendering the service.
3. The utility will assess a charge for the following non-recurring services:
 - a) Connection/Turn-on Charge: Will be assessed for new service turn-ons, seasonal turn-ons, temporary service, or transfer of service. The charge will not be made for initial installation of service where a meter connection/tap-on charge is applicable.
 - b) Field Collection Charge: Will be assessed when a utility representative visits the premises of the service connection to terminate service, and the customer is on-site and pays the bill to avoid termination of service. This fee may only be charged once per billing period.
 - c) Late Payment Penalty: Will be assessed on the delinquent amount of the bill, less taxes. Pursuant to 807 KAR 5:006 Section 8(3)(h), a penalty may be assessed only once on any bill for rendered services.
 - d) Meter Relocation Charge: Will be assessed when a customer or other authorized person requests that a meter be relocated, changed, or modified. Those requesting a change must reimburse the utility for the actual costs

incurred, including but not limited to appropriate legal, administrative, engineering, overhead, or other related costs.

- e) Meter Re-read Charge: Will be assessed when a customer requests the utility to re-read the customer's meter and the re-read proves that the original meter reading was correct.
- f) Meter Test Charge: Will be assessed when a customer requests the utility perform a test on the customer's meter to check for accuracy, and the test shows the customer's meter is not more than two percent (2%) fast.
- g) Reconnection Charge: Will be assessed to reconnect service that has been terminated for non-payment of service or for violation of Utility or Public Service Commission rules and regulations, and will include the cost of the service trip for both the disconnection and the reconnection.
- h) Returned Check Charge: Will be assessed when a customer's check is returned, either due to insufficient funds or other reason due to customer fault.
- i) Service Call/Investigation Charge: Will be assessed when a customer requests the onsite presence of utility personnel to investigate a service problem and the problem is a result of the customer's own plumbing facilities, beyond the utility's delivery point, or not caused by failure of utility facilities. Any maintenance and repair of facilities beyond the utility's delivery point is the responsibility of the customer.

F. Monitoring of Customer Usage.

At least once annually the utility will monitor the usage of each customer according to the following procedure:

1. The customer's annual usage for the most recent twelve (12) month period will be compared with the annual usage for the twelve (12) months immediately preceding that period.
2. If the annual usage for the two periods are substantially the same or if the difference is known to be attributed to unique circumstances, such as unusual weather conditions common to all customers, no further review will be done.
3. If the annual usages differ by 200% or more and cannot be attributed to a readily identified common cause, the utility will compare the customer's monthly usage records for the twelve (12) month period with the monthly usage for the same months of the preceding year.
4. If the cause for the usage deviation cannot be determined from analysis of the customer's meter reading and billing records, the utility will contact the customer by telephone or in writing to determine whether there have been changes such as different number of household members or work staff, additional or different appliances, changes in business volume, or known leaks in the customer's service line.
5. Where the deviation is not otherwise explained, the utility will test the customer's meter to determine whether it shows an average error greater than two (2) percent fast or slow.
6. The utility will notify the customer of the investigation, its findings, and any refunds or backbilling in accordance with 807 KAR 5:006 Section 10 (4) and (5).

In addition to the annual monitoring, the utility will immediately investigate usage deviations brought to its attention as a result of its on-going meter reading, billing processes, or customer inquiry.

**PROMISSORY NOTE
HIGHWAY 48 PROJECT**

The undersigned (the "CUSTOMER"), as a contribution in aid of construction, hereby promises to pay to the order of the North Nelson Water District (the "DISTRICT"), the sum of TWO THOUSAND FIVE HUNDRED DOLLARS (\$2,500.00), plus interest thereon at the rate of six percent (6%) per annum, with said sum being due and payable in 120 equal monthly installments of \$27.76 each which represents payment on both the principal and interest. The first monthly installment shall commence 30 days after the DISTRICT has completed construction of the water transmission lines and other improvements necessary to serve the CUSTOMER (the "PROJECT") and water service has been made available to the CUSTOMER (the "COMPLETION DATE"). Thereafter, the CUSTOMER must make a like installment payment of \$27.76 per month on or before the 10th day of each and every month thereafter until the Promissory Note has been paid in full.

**THE CUSTOMER HAS THE RIGHT TO PREPAY ALL, OR ANY PART, OF
THE PROMISSORY NOTE WITHOUT PREPAYMENT PENALTY.**

This Promissory Note does not bear any interest until the COMPLETION DATE. Thereafter, it bears interest at the rate of six percent (6%) per annum.

SALE OF PROPERTY. In the event the CUSTOMER sells his property before the Promissory Note has been paid in full, then the entire remaining unpaid balance shall be due and payable at the time of sale. The Promissory Note is not assumable by the new purchaser. The new purchaser of the property will not be required to pay any additional contribution in aid of construction unless the new purchaser needs more than one (1) meter.

WATER SERVICE NOT AVAILABLE. If the PROJECT is not completed, or if water service is not made available to the CUSTOMER, then this Promissory Note shall be declared null and void, marked "CANCELLED", and returned to the CUSTOMER.

DEFAULT. In the event the CUSTOMER fails to make any installment payment on or before the time specified herein, or within fifteen (15) days thereafter, with time being of the essence hereof, the DISTRICT may, without notice or demand, declare the entire unpaid balance immediately due and payable. If the CUSTOMER does not pay the remaining unpaid balance, plus accrued interest, by the tenth (10th) day of the following month, then he shall forfeit all payments previously made on this Promissory Note and be liable for damages. The DISTRICT shall be entitled to keep all prior payments made by the CUSTOMER.

SECTION 9 (1)

BY Stephen D. Bell
SECRETARY OF THE COMMISSION

CUSTOMER as liquidated damages and to terminate the CUSTOMER's water service. However, if the CUSTOMER reapplies for water service at the same location, his prior principal payments, minus any reasonable fees that the DISTRICT incurred to enforce this Promissory Note, shall be credited to any contribution in aid of construction that the DISTRICT may require. Any person who subsequently purchases the property after the default and applies for water service to the property may be required to pay the DISTRICT a contribution in aid of construction of \$2,500.

ATTORNEY FEES. In the event it becomes necessary for the DISTRICT to enforce collection of this Promissory Note by legal action, then the DISTRICT shall be entitled to recover the then unpaid amount of this Promissory Note, plus accrued interest, Court costs, and reasonable attorney fees.

NO REFUND. The CUSTOMER recognizes and acknowledges that additional persons will probably connect to the water lines after the PROJECT is completed. The CUSTOMER will not be entitled to any refund or rebate as these other persons make \$2,500. contributions in aid of construction.

PSC APPROVAL. The terms and conditions contained in this Promissory Note are subject to approval by the Kentucky Public Service Commission (the "PSC").

WATER SHORTAGE RESPONSE PLAN

North Nelson Water District

DIVISION OF UTILITY
ENGINEERING & SERVICES

Section 1. Purpose. The purpose of this Plan is to provide for the declaration of official phases of water supply shortages and the implementation of voluntary and mandatory water conservation measures throughout the North Nelson Water District in the event a shortage is declared.

Section 2. Definitions. These terms are applicable only for this Plan unless specifically noted.

- (a) "Customer" shall mean any person or entity using water for any purpose from the North Nelson Water District water distribution system and for which either a regular charge is made or, in the case of bulk sales, a cash charge is made at the site of delivery.
- (b) "Raw Water Supplies" shall mean all water potentially available to persons in the North Nelson Water District.
- (c) "Treated Water" shall mean water that has been introduced by the North Nelson Water District into its water distribution system, including water offered for sale. Uses of treated water are classified as follows:

Essential Water Uses (Class 1):

The following uses of water, listed by site or user type, are essential.

Domestic:

- water necessary to sustain human life and the lives of domestic pets, and to maintain minimum standards of hygiene and sanitation.
- agricultural uses pertaining to livestock watering and milking facilities, where no other source is available.

Health Care Facilities:

- patient care and rehabilitation, including ~~related~~ filling and operation of swimming pools.

Public Use:

- firefighting,
- health and public protection purposes, by ~~health~~ health officials.

PUBLIC SERVICE COMMISSION MANAGER

Socially or Economically Important Uses (Class 2):

The following uses of water, listed by site or user type, are socially or economically important.

Domestic:

- personal, in-house water use including kitchen, bathroom and laundry.

Water Hauling:

- domestic and non-domestic, when other sources are not reasonably available elsewhere.

Commercial and Civic Use:

- commercial car and truck washes,
- laundromats
- restaurants, clubs and eating places.
- schools, churches, motels/hotels and similar commercial establishments.

Outdoor Non-Commercial Watering:

- minimal watering of vegetable gardens,
- minimal watering of trees where necessary to preserve them.

Outdoor Commercial or Public Watering (using conservation methods and when other sources of water are not available or feasible to use):

- agricultural irrigation for the production of food and fiber or the maintenance of livestock,
- watering by arboretums and public gardens of national, state, regional or community significance where necessary to preserve specimens,
- watering by commercial nurseries at a minimum level necessary to maintain stock,
- watering at a minimum rate necessary to establish or maintain revegetation or landscape plantings required pursuant to law or regulation,
- watering of woody plants where necessary to preserve them,
- minimal watering of golf course greens.

Recreational:

- operation of municipal swimming pools and residential pools that serve more than 25 dwelling units.

Air Conditioning:

- refilling for startup at the beginning of the cooling season,
- makeup of water during the cooling season,

SEP 22 1988
PURSUANT TO 807 KAR 5:011,
BY: *[Signature]*
PUBLIC SERVICE COMMISSION MANAGER

- refilling specifically approved by health officials where the system has been drained for health protection or repair services.

Non-Essential Uses (Class 3):

Any waste of water, as defined herein, is non-essential. The following uses of water, listed by site or user type, are non-essential.

Public Use:

- use of fire hydrants (excluding Class 1 and Class 2 uses), including use of sprinkler caps, testing fire apparatus and fire department drills,
- flushing of sewers and hydrants except as needed to ensure public health and safety as approved by health officials.

Commercial and Civic Use:

- serving water in restaurants, clubs, or eating places, except by customer request,
- failure to repair a controllable leak,
- increasing water levels in scenic and recreational ponds and lakes, except for the minimum amount required to support fish and wildlife.

Ornamental Purposes:

- fountains, reflecting pools and artificial waterfalls.

Outdoor Non-Commercial Watering:

- use of water for dirt control or compaction,
- watering of annual or non-woody plants, lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,
- flushing gutters or permitting water to run or accumulate in any gutter or street.

Outdoor Commercial or Public Watering:

- expanding nursery facilities, placing new irrigated agricultural land in production, or planting of landscaping, except when required by a site design review process,
- use of water for dirt control or compaction,

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE
SEP 22 1988

PURSUANT TO 807 KAR 5:011,
SECTION 9 (1)
BY: [Signature]
PUBLIC SERVICE COMMISSION MANAGER

- watering of lawns, parks, golf course fairways, playing fields and other recreational areas,
- washing sidewalks, walkways, driveways, parking lots, tennis courts or other hard-surface areas,
- washing down buildings or structures for purposes other than immediate fire protection,
- flushing gutters or permitting water to run or accumulate in any gutter or street.

Recreational uses other than those specified in Class 2.

Non-commercial washing of motor and other vehicles.

Air Conditioning (see also Class 2 purposes):

- refilling cooling towers after draining.
- (d) "Base Entitlement" shall mean the monthly usage for a customer during the same month of the preceding calendar year or the average per customer usage for each class of service during the same month of the preceding year.
- (e) "Curtailed Entitlement" shall mean the monthly usage for a customer after any curtailment percentage has been applied.
- (f) "Curtailment" shall mean the reduction in entitlement by some percentage to meet anticipated water shortages.
- (g) Water Shortage Response Phases:
- "Advisory" shall mean that conditions exist which indicate the potential for serious raw or treated water supply shortages.
- "Alert" shall mean the raw or treated water supplies are consistently below seasonal averages, and if they continue to decline, may not be adequate to meet normal needs.
- "Emergency" shall mean that raw or treated water supplies are below the level necessary to meet normal needs and that serious shortages exist in the area.
- (h) "Rationing" shall mean that procedures must be established to provide for the equitable distribution of critically-limited raw or treated water supplies, in order to balance demand and limited available supplies, and to assure that sufficient water is available to preserve public health and safety.

Section 3. Applicability. The provisions of this Plan shall apply to all retail and wholesale customers of the North Nelson Water District. When implemented, this Plan becomes North Nelson Water District's Water Shortage Response Regulation.

Section 4. Entitlements. Entitlements shall be established for each customer by adjusting the base entitlement to reflect any known change in usage pattern.

Section 5. Determination of Water Shortage. Water supply and usage shall be monitored on a continuous basis. Unrestricted demand shall be projected from past records and adjusted for changes such as new developments and weather conditions on a regular basis. (Note: A sample calculation page is attached as Appendix A. to assist in determining overall water levels. It is important that accurate water measurements be used.) Water shortages generally occur for two reasons, a reduction in available supplies or a system failure. Each of these has a distinct influence on the nature and duration of the conservation program implemented. Official declaration of a water shortage stage and implementation of the measures necessary to curtail water use shall be approved by the Board of Commissioners.

Section 6. Term of Water Shortage Declaration. Any water shortage declaration shall remain in effect until water supplies of service conditions have returned to normal. A final determination as to terminating a water shortage declaration shall be made by the Board of Commissioners of North Nelson Water District.

Section 7. Water Shortage Stage, Criteria, Conservation and Curtailment Measures.

A. Advisory Stage:

- (1) Criteria: A water advisory shall be declared when the amount of treated water or raw water available for treatment is projected to be up 10% of the normal daily demand and/or contracted amount, or there are periods of low water pressure in one or more areas of the distribution system due to system failure or inadequacies or the State Division of Water issues a Water Shortage Watch which includes the areas from which the North Nelson Water District draws water. (Note: Additional conditions may be added based on local conditions.)
- (2) Conservation and Curtailment Measures:
 - (a) Declare a Water Shortage Advisory.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Request voluntary conservation of all non-essential (Class 3) water use.
 - (e) Request wholesale customers also issue request for voluntary conservation by their customers of all non-essential (Class 3) water use.

B. Alert Stage:

- (1) Criteria: A water alert shall be declared when the amount of treated water available is projected to be up more than 15% the normal daily demand and/or contracted amount demand, or raw water supplies are consistently below seasonal averages and if they continue to decline, may not be adequate to meet normal needs. (Note: Additional conditions may be added based on local conditions.)
- (2) Conservation and Curtailment Measures:
 - (a) Declare Water Shortage Alert.

- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all non-essential (Class 3) water uses.
- (e) Curtail entitlements to all customers by the same percentage as the projected shortage.
- (f) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$5.00 per 1,000 gallons.

C. Emergency Stage:

1. Criteria: A Water Emergency shall be declared when the amount of treated water available is projected to be up more than 20% of the normal daily demand, or there are periods of no water in one or more areas of the distribution system due to low water supply or raw water supplies below the level necessary to meet normal needs. (Note: Additional conditions may be added based on local conditions.)
2. Conservation and Curtailment Measures:
 - (a) Declare Water Shortage Emergency.
 - (b) Provide proper notice to all customers and to all local news media.
 - (c) Eliminate all water leaks.
 - (d) Prohibit all Class 3 uses of water.
 - (e) Prohibit all Class 2 uses of water except domestic uses for kitchens, bathrooms and laundries.
 - (f) Curtail all commercial and industrial entitlements (except Health Care Facilities) by 100%.
 - (g) Curtail Residential entitlements by 20%.
 - (h) Curtail entitlements to all loading stations by 100%.
 - (i) Begin billing all customer water usage in excess of curtailed entitlement at the normal rate plus an excess usage charge of \$8.00 per 1,000 gallons.

PUBLIC SERVICE COMMISSION
OF KENTUCKY
EFFECTIVE

SEP 22 1988

PUBLIC SERVICE COMMISSION
SECTION 9 (1)

BY: *[Signature]*
PUBLIC SERVICE COMMISSION MANAGER

D. Rationing Stage:

1. Criteria: Treated water available is greater than 25% of the normal daily demand or raw water supplies are below the level necessary to meet essential needs, and in the opinion of the Board of Commissioners, mandatory rationing is required to insure adequate water is available to maintain public health and safety.

2. Conservation and Curtailment Measures:

- (a) Declare Water Shortage Rationing.
- (b) Provide proper notice to all customers and to all local news media.
- (c) Eliminate all water leaks.
- (d) Prohibit all Class 3 and Class 2 uses of water.
- (e) Curtail all commercial and industrial entitlement (except Health Care Facilities) by 100%.
- (f) Curtail all loading stations by 100%.
- (g) Curtail all residential entitlements by 25%.
- (h) Implement service interruptions to portions of system in accordance with approved published schedule. The schedule shall be provided to all local media.
- (i) Begin billing customer water usage in excess of curtailment entitlement at the normal rate plus an excess usage charge of \$10.00 per 1,000 gallons.

Section 8. Enforcement of Water Restriction: Any person who violates the provisions of this Plan, who fails to carry out the duties and responsibilities imposed by this Plan, or who impedes or interferes with any action undertaken or ordered pursuant to this Plan shall be subject to the following:

- (a) If the utility official charged with implementation and enforcement of this Plan learns of any violation of any water use restriction imposed, a written notice of the violation shall be affixed to the property where the violation occurred and mailed to the customer of record. Said notice shall describe the violation and order that it be corrected, cured, or abated immediately or within 48 hours. SEP 22 1988
PURSUANT TO 807 KAR 5.011,
SECTION 9(2)(D)
BY: [Signature]
PUBLIC SERVICE COMMISSION MANAGER
- (b) The notice will inform the customer of his or her right to appeal by requesting a hearing before the utility's designee. If a hearing is requested by the customer, he or she shall be given full opportunity to be heard before termination. The governing body shall make findings of fact and decide whether service should continue or terminate.
- (c) Any customer whose water service is terminated for violating provisions of this water curtailment plan shall be subject to [REDACTED] the approved reconnection fee and reconnections will be made only during normal working hours.
- (d) The excess usage charge billing provisions of this Plan shall not be put in effect if a county or city ordinance containing penalty provisions is in effect to assist enforcement of this Plan.

Section 9. Request for Exception.

- (a) Exception to water use restrictions: If compliance with any curtailment measure authorized herein would cause a customer to bear extraordinary hardship, that individual or entity may apply to the North Nelson Water District for an exception. For these purposes, "extraordinary hardship" shall be defined as a condition which may threaten health and safety, or cause property or economic losses, each of which must be shown to be substantially more severe than the sacrifices borne by other users. If extraordinary hardship is found to exist, then any exception shall be granted and a written waiver issued to the customer. If an appeal is made, water service shall be continued until a decision is announced. Any person aggrieved by the decision may file a complaint with the Public Service Commission.
- (b) Exception to curtailment surcharges. Exceptions to excess use charges shall not be considered or granted.

Section 10. Severability. If any provision of this Plan is declared invalid by the courts, the remainder of the Plan and its applicability to other persons and circumstances shall not be affected by that declaration.

Section 11. Effective Date. This Plan shall take effect immediately upon approval by the Public Service Commission.
